Press Note.

Dated 2nd August 1950.

Activities of the Animal Husbandry Department for the Fortnight ending with 15th July 1950.

During the fortnight the Director of Animal Husbandry Services in Mysore, Bangalore, toured in the Districts of Shimoga and Chitaldrug in connection with control measures against Rinderpest, which had effected as many as nine villages in Shimoga District and ten villages in Chitaldrug District. He inspected the inoculation work now being undertaken by the special staff posted for the purpose, and issued necessary instructions to them in the matter of building up an effective barrier against the spread of infection to other areas. He also contacted the Deputy Commissioners, the Press and leading non-officials of the areas and requested them to co-operate with the staff of the Department in controlling this disease which was threatening to assume the proportion of a major wave, at a time when in the interest of increasing our food production, the conservation of our cattle wealth is admittedly a problem of no ordinary importance.

As a result of the prompt precautionary measures undertaken by the Department, no fresh outbreaks have been reported so far, while the prophylactic measures are being actively extended to wider belts and all road-side villages.

Lt.-Col. Shortt and Mr. Wells of the Imperial Chemical Industries visited the Mysore Serum Institute and Hessarghatta Grass and Stud Farm. Two talkie films on "Mastitis" and "Internal Parasites" were also arranged to be shown by them to the officers of the Department at the City Veterinary Hospital.

At the two Artificial Insemination Centres in Bangalore and Mysore, 115 cows were artificially inseminated. The Sub-centre opened at the Civil Station Veterinary Hospital, Bangalore, continued to work satisfactorily.
